Unless you vote “**NO**” on the recall, your council member will be chosen by the city council. You won't have a vote. NO JOKE!

In this recall election, there is only one word you need

NO.

WARNING:

Unless you vote “NO” on the recall, your new council member will be chosen by the eight big-spending politicians on the city council. You won't have a vote. **NO JOKE!**

Just say “NO” to insiders & developers using secret cash to eject our best council member. They hate Helen because they can't control her.

Just say “NO” to out-of-state drifters paid \$6 per signer to trick local citizens into signing a recall petition to trade Helen for an anonymous robot they can control. Over half the filed entries are invalid (=fraud).

Just say “NO” to our dishonest city clerk who said no one can ever dispute her petition review! Code section 5.1.511 allows 40 days to protest the entries. A protest was filed on time, but City Hall illegally set the election early. They want to select your new council member.

Just say “NO” to the city attorney who urged this early election and stalled citizen review of the illegal forms and entries. To spite Helen, who opposed that lawyer's gross salary (\$192,000 plus benefits), that lawyer told council special election costs are \$300K. (\$6K is closer.)

Just say “NO” to recall abuse. Three school district #2 folks gave odd “reasons” for their city recall: 1) Helen Collins voted against the “rain tax,” as did most city district #4 voters; and 2) Helen opposes the \$235 million downtown arena tax subsidy to developers owning that land.

Visit CollinsforCouncil.com and see an honest, frugal, courageous council member in action. She kept all her campaign promises. She saved you money. Voters must continue to “Give 'em Helen!”

VOTE “NO” ON THE RECALL.
